

We offer  
comprehensive,  
all risk coverage  
to renters like you.

Your landlord's insurance will only protect the building itself. So, who protects you? McConville Omni will build a personalized tenant's insurance policy that protects you and your belongings.

**What is Tenant's Insurance?** Tenant insurance (often referred to as renters insurance) protects the things that you own in your unit. Renters insurance protects your unit's contents (items like your clothes, sporting equipment, furniture and appliances) as well as liability coverage to protect you against legal fees associated with someone being injured in your home. Tenant's Insurance helps to replace your possessions in the event of a loss due to a covered risk.

### Key Covered Losses

- Fire
- Theft
- Vandalism
- Flooding or water damage
- Wind and hail
- Property liability
- Bodily injury

### How a Tenants Policy protects you

- **Your belongings** - Protects you financially from losses or damage to your personal belongings inside your rental home, or apartment.
- **Living expenses** - Helps to cover expenses associated with moving to a new home, or staying in a hotel in the event of a covered loss.
- **Liability claims** - Helps to protect you financially if you accidentally cause property damage or bodily injury to others at your rental home.

### Benefits of having a Tenants Policy

- We get to tailor your coverage to your specific needs
- You have the ability to add extra protection to high valued items
- Your personal belongings are covered (even while you are traveling or away from the home!)
- The contents of your vehicle are covered in case of theft
- You will have somewhere to live in case you can't be in your home after a claim
- You may be entitled to additional discounts depending on your age or work-status

**\*A multi-line discount may be available to you for your auto insurance as well!**

We want to understand you to help protect you.
